

IMPACT of becoming a fully qualified School Mental Health Specialist

INNOVATIVE

The only qualifications of their kind currently available in the UK.

MASTER'S LEVEL

Study underpinned by evidence-based research, delivered by skilled practitioners in the field from a CIC with an enviable reputation.

PROFESSIONAL DEVELOPMENT

A unique opportunity to be a specialist and pioneer the field of mental health in education, strategically leading on the skills, knowledge and understanding to embed a whole-school approach.

APPLIED

Assignments that use your setting as the focus and positively impact the provision of mental health for all in your community.

COLLABORATIVE

Working with experts in the field of mental health in education and also with colleagues in the UK and internationally to enhance your setting's approach to mental health.

TIMELY

Never before have we seen such a huge rise in the presentation of emerging and established mental health needs within our settings both from a staff and a pupil's perspective.
